SECTION III SUMMARY ON THE BUSINESS OF THE COMPANY

I. The Company's Main Businesses, Operation Model, and Industrial Description for the Reporting Period

(I) The Company's Principal Business Model

Brokerage and wealth management: The Company provides brokerage and investment consulting services for retail clients to earn fee and commission, holds cash on behalf of clients to earn interest income, and sells the financial products developed by the Company and other financial institutions to earn commission fee.

Credit business: The Company earns interest income from margin financing and securities lending, collateralized stock repurchase transactions, trading in securities under repurchase agreement and stock option financing for listed companies, and also earns income from financial leasing business carried out by Everbright Leasing.

Institutional securities business: The Company earns fee and commission by providing underwriting, financial advisory, investment research and prime brokerage services to corporate and other institutional clients, and also investment income and interest income from proprietary trading and market making services.

Investment management: The Company earns management and consulting fees by providing asset management, fund management, and private equity investment management services to clients, and gains investment income from private equity investments and alternative investments.

Overseas business: The Company earns fee and commission, interest income and investment gains through overseas business.

(II) Description of Industrial Situation during the Reporting Period

In the first half of 2017, the world economy kept improving. Developed economies generally maintained the recovery momentum, and international financial market remained relatively stable. Nevertheless, there were a number of risks and uncertainties. Domestic economy advanced amid stability. China's policy of "removal of obsolete production capacity, inventory and leverage, cost reduction and weak spot bolstering" yielded solid results, and policies continued to fruit, as evidenced by a year-on-year growth of 6.9% in GDP, and better-than-expected major indices including economic growth, employment, commodity price and balance of payment, pointing to enhanced stability, coordination and sustainability of economic development.

Prevention and control of financial risks took up a more important position in industry regulation, and efforts were made to intensify promotion of lawful, stringent and comprehensive regulation. Under the clearer policy guidance focusing on principal businesses and based on risk control, promoting financial service for real economy is both the means and end of the current regulatory tasks. In the first half of 2017, the CSRC rolled out new rules on suitability, refinancing and stock-selling, and the CBRC promulgated a range of important regulatory policies addressing "three arbitrages" (regulatory arbitrage, idle funds arbitrage and related entity arbitrage) (監管套利、空轉套利、關聯套利) and "four improprieties" (improper innovation, improper transactions, improper incentives and improper fees) (不當創新、不當交易、不當激勵、不當收費), guiding the healthy development of the industry.

SECTION III SUMMARY ON THE BUSINESS OF THE COMPANY

Affected by deleveraging and rising risk aversion, the secondary market was lukewarm on the whole and investors were relatively inactive, but some indices showed stable and positive changes. By the end of June 2017, the SSE Composite Index and CSI 300 Index achieved an increase of 2.86% and 10.78%, respectively, while the China Bond Composite Full Price Index dropped by 2.11% as compared with the beginning of the year. In the first half of 2017, the daily average trading volume of stock and fund amounted to RMB473.3 billion, representing a decrease of 18% as compared with the corresponding period of last year, and the balance of margin financing and securities lending of the market amounted to RMB879.9 billion, representing a decrease of 6% as compared with the end of last year. In the first half of 2017, the market witnessed evident acceleration in IPO, with a total of RMB808.697 billion raised through equity financing, representing a decrease of 11.94% as compared with the corresponding period of last year. In particular, the number of companies launching IPOs and the fundraising proceeds raised from IPOs increased by 311.48% and 342.80% as compared with the corresponding period of last year, respectively. Given increasingly stringent supervision on the bond market, tightened liquidity and rising interest rate, the bond market was extremely sluggish and 92 brokers underwrote bonds with an aggregate underwritten amount of RMB1.59 trillion, representing a decrease of 34.02% as compared with the corresponding period of last year. Specifically, a total of RMB410.714 billion of corporate bonds were issued, representing a decrease of 71.48% as compared with the corresponding period of last year.

II. Descriptions of the Material Changes in the Major Assets of the Company during the Reporting Period

The major assets of the Company include monetary assets, clearing settlement funds, margin accounts, and financial assets at fair value through profit or loss, financial assets held under resale agreements, available-for-sale financial assets and long-term equity investment. For details of the changes in the major assets during the Reporting Period, please refer to “I. Discussion and Analysis of Business Operation – 4. Analysis on principal components of consolidated statement of financial position” of Section IV “Report of the Board”.

Overseas assets reached RMB25,911,634,700, representing 13.30% of the Group's total assets.

Overseas assets arose from the investment in EBSHK, a subsidiary in Hong Kong, details of which are set out in “I. Discussion and Analysis of Business Operation – (I) Analysis of the principal businesses – 7) Analysis on principal subsidiaries and controlled companies” of Section IV “Report of the Board”.

SECTION III SUMMARY ON THE BUSINESS OF THE COMPANY

III. Analysis on Core Competitive Strengths During the Reporting Period

(I) As the core financial service platform of Everbright Group, we benefit from the synergistic effect and brand strength

Contributed and established by the State Council, the Company's controlling shareholder, the Everbright Group, is one of the financial conglomerates directly owned by the MOF and Huijin. It is one of the most recognized and influential conglomerates in China and is a Fortune Global 500 firm in 2015 and 2016. Leveraging the Everbright Group's brand recognition, extensive platform and enormous resources, the Company has abundant collaboration with subsidiaries of the Everbright Group, realizing significant synergies.

(II) Strong core business platform generating high synergies across business lines

As one of the comprehensive financial service providers with full business licenses, the Company is able to offer a wide range of financial products and services to meet the diverse needs of clients. The Company's business lines include brokerage and wealth management, credit business, institutional securities services, investment management, and overseas business. The Company has achieved balanced growth and high coordination across all its business lines, thereby generating diversified and stable sources of revenue.

(III) Leading integrated onshore and offshore financial services platform

Expanding the Company's overseas operations is one of the Company's major strategies. Following the acquisition of 51% equity interest in ESIL in 2011, the Company acquired 70% equity interest in SHKFGL and the remaining 49% interest in ESIL in 2015 and 2016, respectively. With the inclusion of RMB in the Special Drawing Rights basket, the development of offshore RMB market, the "One Belt One Road" Initiatives and the "Going Global" Strategy, there will be a closer link between the onshore and offshore markets as well as more frequent interactions in financial industry. The Company will make full use of its cross-border platform to capture future development opportunities. During the Reporting Period, the Company completed the acquisition of North Square Blue Oak Limited (NSBO), a U.K.-based brokerage and research firm, marking the Group's debut at the European market and making an important step towards extending overseas layout, expanding international sales and trading networks and enlarging global client base.

(IV) Industry pioneer with strong innovation capabilities

As one of the first three PRC securities firms licensed to engage in innovative business, the Company has been constantly innovating its business models. The Company is the first PRC securities firms to set up a finance leasing company and jointly establish an Internet finance platform with Internet enterprises. Through the business platforms including the comprehensive Internet financial service platform "Fu Chun"(富尊), the securities trading platform "Golden Sunshine"(金阳光) and Everbright Yichuang's "Lima Wealth Management"(立馬理財), the Company has made every effort to offer more diversified financial services to clients.

SECTION III SUMMARY ON THE BUSINESS OF THE COMPANY

(V) Prudent risk management and internal control

The Company has established a comprehensive risk management system. By including risk planning in the Company's strategies, centralizing the risk data, optimizing the risk management policies, techniques and systems and full coverage to its subsidiaries, the Company has set up a strong risk prevention system. The Company is one of the first securities firms with comprehensive risk management strategy.

(VI) Experienced management team and high-quality and stable staff team

The senior management of the Company have an average of over 20 years of management experience in the securities and financial services industry and have extensive working experience in regulatory authorities. They have deep knowledge on the current national affairs, the trends of securities and financial industries, enabling them to keep abreast of the market trend. Meanwhile, the Company has an effective talent system and maintains a high-quality and stable workforce.

SECTION IV REPORT OF THE BOARD

I. Discussion and Analysis of Business Operation

Under regulatory and market pressure, the Company analyzed industry status in a scientific manner. Following the overall principle of “making progress while ensuring stability” and centering on “bolstering areas of weakness, overcoming the obstacles, giving play to strong points and consolidating the foundation”, the Company kept to its strategic goals, proactively adapted to the changes and sought the opportunities of “making progress” while “ensuring stability”, making all efforts to smoothly carry out various work tasks, and promoting balanced development of various business segments. Generally speaking, the operation of the Company in the first half of 2017 could be summarized as “stable”: stable development of principal businesses, stable progress made in operational management and stable control over compliance risks. During the Reporting Period, the Company recorded total revenue and other income of RMB6.28 billion and net profit attributable to the parent company of RMB1.24 billion. As of June 30, 2017, the Company’s total asset amounted to RMB194.86 billion and total equity of owners amounted to RMB49.27 billion.

SECTION IV REPORT OF THE BOARD

III. Potential risk exposure

(1) Market risk

Market risk exposure to the Company refers to the future potential loss in value of its financial instruments resulting from changes or fluctuations in their market prices, mainly including equity and other price risk, interest rate risk and exchange rate risk, etc.

In terms of the market risk, the Company adheres to the principle of proactive management and quantitative orientation and establishes a risk limit system incorporated with authorization procedures for market risk tolerance and business risk limits based on the risk tolerance preferences of the Company. The Board determines the annual scale of proprietary trading business and the market risk loss tolerance, and the committee under the senior management of the Company determines the market risk loss tolerance for each specific item and reviews and approves specific limits for each business, including net exposure value, investment concentration, basis point value, etc. The Company's proprietary trading department implements risk controls by a combination of investment portfolios, mark-to-market measures, hedging and mitigation measures. The risk hedging instruments adopted include stock index futures, treasury bond futures and interest rate swap etc. The risk management department monitors each of risk limits separately on a daily basis, and will send an alert and risk warning to the management and relevant business departments in a timely manner once a specific limit approaches or exceeds the pre-determined risk limit. Under such circumstance, the relevant business department shall put forward an analysis report and corresponding countermeasures. The Company has established a stress testing mechanism to analyze the potential loss that the positions may suffer under the stress scenario. Stress testing is an integrated part of the Company's market risk management, through which the potential loss that the Company may suffer under the stress scenario could be estimated, and provides a basis for the Company's management to make decisions.

As the Company carries out overseas and business expansion, it may be exposed to the fluctuation risk of exchange rate. The Company will hedge and mitigate the exchange rate risk by a series of means, so as to support the Company to explore overseas business and expand its overseas operations according to the actual situation.

(2) Credit risk

Credit risk refers to potential losses resulting from the failure of a debtor or counterparty to perform its obligations under a contract, mainly due to the securities and futures trading on behalf of the clients, default risk arising from bond issuers or OTC derivatives counterparties, and risks due to the failure of full repayment as agreed by clients of credit businesses such as margin financing and securities lending.

SECTION IV REPORT OF THE BOARD

In terms of the securities and futures trading on behalf of the clients, all transactions thereunder are settled in margin deposits pursuant to the regulatory requirements, and therefore the exposure to credit risk is small. In terms of bond investments, the Company controls the credit risk exposure by setting the investment concentration limit and the lower limit for debt investment rating, and closely monitoring the operating position of the bond issuers. For the credit business, the credit risk is controlled and managed through providing risk education, credit investigation, credit extension, mark-to-market measures, risk alert, forced liquidation and judicial recourse to the clients, as well as establishing stringent standards for the scope and discount rate of collaterals, margin deposit ratios, and maintenance margin ratios. For the OTC derivatives business, the Company conducts due diligence, credit rating and scale control on the counterparties and adopts the mark-to-market measures, collaterals supplement and disposal of collaterals to control the credit risk exposure to the counterparties.

(3) Operational risk

The operational risk exposure to the Company refers to the potential losses arising from defective internal procedures, human resource, IT system and external events.

The Company has formulated administrative measures for managing the operational risk, specified the governance structure of the operational risk and strengthened the responsibilities and duties for managing each defense line of operational risk. The Company continues to strengthen the business process management and IT system construction, reinforce the accountability system and reduce the possibility of operational risk. In addition, the Company has promoted the construction and operation of tools for managing operational risk, and improved the operational risk event reporting and loss data collection mechanism, which has further enhanced the Company's capabilities in managing the operational risk. Besides, the Company attaches great importance to the identification and control of operational risks in innovative products and innovative businesses and standardizes the operating procedures so as to ensure that the overall operational risk faced by the Company is controllable and tolerable.

(4) Liquidity risk

Liquidity risk refers to the potential risk of the Company's failure to obtain sufficient funds at a reasonable cost to repay debts as they come due, perform its other payment obligations and satisfy the capital requirements for its normal business operations.

For the purpose of preventing the liquidation risk prudently, the Company has formulated administrative measures for the liquidation risk, specified the governance structure of the operational risk, established an alerting mechanism for liquidation risk limit management and monitoring, and set up a well-established liquidation risk emergency and capital supplement mechanism. Meanwhile, the Company also proactively extends the financing channels and methods and continues to establish a sound and comprehensive liquidation risk management system.

SECTION IV REPORT OF THE BOARD

The planning and finance department is authorized by the Company to take charge of the liquidation risk management, implement overall controlling over the capital resources and financing management of the Company, coordinate to satisfy the capital requirements, and manage its cash flows. Meanwhile, the risk management of the Company is responsible for monitoring the liquidation risk and implementation of limitation system.

During the Reporting Period, the Company proactively extended and continuously optimized the funds raising and financing channels, and satisfied its capital requirements in a reasonable manner, and also adjusted the limit indicators for liquidation risk timely in case of any changes in the market. The Company has completed the construction of the liquidation risk management system to further improve the liquidation measurement and management methods. Therefore, the overall liquidation risk of the Company is controllable and tolerable.

(5) Information technology risk

The Company's principal businesses including securities trading heavily rely on the real-time processing of clients' trading data via electronic information system, and storing enormous data on trading business and operating activities on electronic devices. The deep integration between information technology and business operation has become the key factor to enable the Company to effectively carry out each business. Securities trading system involves various aspects and has higher requirement on maintaining continuity, which may subject to potential information system risks arising from a series of unforeseeable events such as hardware and software as well as communication failure, in turn affecting the Company's reputation and service quality or leading to economic losses and legal disputes.

During the Reporting Period, the Company increased its investment in infrastructure as well as other technological upgrade in order to further enhance the development of intra-city and inter-city disaster backup systems and optimize the unified data backup platform. Moreover, the Company strengthened the development of monitoring system and platform for operation and maintenance, intensified system capacity management and continuously improved all performance indicators of the system. Meanwhile, the Company held regular tabletop and practical exercises to further improve and optimize the emergency response procedures of the system, and conducted regular comprehensive analysis and assessment on various risks that the Company's information technology may expose to, aiming to prevent and avoid the occurrence of various information technology risks. Meanwhile, the Company introduced scientific methods of operation and management, and continuously revised and refined the information technology management system and strengthened staff training. By pursuing the principle of turning its experience into knowledge, knowledge into standard, standard into procedure, the Company continued to uplift the management of operation and maintenance and the ability in emergency response.

(6) Reputation risk

Reputation risk refers to the risk resulting from negative feedback from related stakeholders due to the operation, management or other acts of the Company or external events.

The Company has managed reputation risk in a proper and effective manner and established a standardized management system, scientific organization structure and system, including publishing "Management Measures of Everbright Securities Company Limited on Reporting of Major Emergencies" (《光大證券重大突發事件報告工作管理辦法》), "Management Measures of Everbright Securities Company Limited on Contingency Plan for Major Emergencies" (《光大證券股份有限公司重大突發事件應急預案管理辦法》), and revising and issuing "Management Measures of Everbright Securities Company Limited on Information Release (Revised in 2017)" (《光大證券股份有限公司信息發佈管理辦法(2017年修訂稿)》), "Management Measures of Everbright Securities Company Limited on Managing Reputation Risk and Crisis Public Relations Affairs (Revised in 2017)" (《光大證券股份有限公司聲譽風險防控和危機公關事務管理辦法(2017年修訂稿)》) in the first half of 2017.

The Company has set up a working group for media affairs management and a leading group for emergency management, realizing collaborative and unified management at company and department level in reputation management. In addition, designated personnel are assigned to specific positions responsible for public opinion monitoring and external media relations work, and industry consultants and law firms are also engaged to assist the Company to better manage reputation risk.

At present, the Company completed the full coverage of reputation risk prevention and control system to its subsidiaries. In the first half of 2017, each subsidiary established, formulated and implemented the management measures of reputation risk prevention and control management suitable for its actual situation.

(7) Compliance risk

Compliance risk refers to the risk of legal sanction, being subject to regulatory measure, loss of property or reputation by the Company arising from violation of laws, regulations or rules due to the operation and management of the Company or practices of its personnel.

For compliance risk, the Company, through establishing practicable compliance management system, realizes effective identification, assessment and management of compliance risks and develops long-term mechanism such as compliance assessment and training, providing effective support and supervision for lawful and compliant operation of the Company's businesses.

IX. POVERTY ALLEVIATION WORK OF LISTED COMPANIES

(I) Targeted Poverty Alleviation Plan

The Company earnestly implemented the strategic plan of poverty alleviation formulated by the Central Government and actively fulfilled its social responsibility by setting up a leading group for poverty alleviation of Everbright Securities to coordinate and lead the Company's poverty alleviation work, with Xue Feng, the secretary of the party committee, Chairman and President of the Company, acting as group leader, and Liu Jiping, the deputy secretary of the party committee and chief Supervisor, acting as deputy group leader. The group sets up poverty alleviation work offices under the leading group, responsible for the daily organization and coordination of the Company's poverty alleviation work.

According to the principles of the Notice of National Plan for Poverty Alleviation in the 13th Five-Year Plan Period Issued by the State Council and the requirements under the Opinions of the CSRC on Capital Markets' Role in Serving the National Strategy for Poverty Alleviation, the Company effectively implemented the "one company for one county" paired-support initiative of securities companies, with realization of targeted poverty alleviation through introduction of resources as the basic strategy, promotion of common prosperity by win-win cooperation as the overall objective, acceleration of industrial upgrading by professional advantages as the major task, and funding of the leading group as the supporting measures.

(II) Summary of Targeted Poverty Alleviation during the Reporting Period

During the first half of 2017, the Company continued to strengthen poverty alleviation efforts and kept exploring a new poverty alleviation model that meets industrial characteristics and corresponds with local situation, forming comprehensive poverty alleviation innovation models with "securities plus" as the representative and promoting the in-depth development of poverty alleviation work through modularized, three-dimensional, grouped, differentiated and targeted services.

Subsequent to its signing of "one company for one county" paired-support agreements with four national-level poverty-stricken counties including Xintian County in Hunan last year, the Company entered into an agreement with Xunwu County in Jiangxi this year, with its paired-support counties reaching five, topping the list in the industry; established Everbright Sunshine Foundation, integrating internal forces and pooling superior resources to practically improve the actual effect of poverty alleviation; entered into the "securities + futures + insurance" cooperation framework agreement with Xiji County in Ningxia, rendering it the foothold to serve for "Three rural issues: agriculture, rural areas and peasantry". by taking potato industry as a breakthrough and applying futures and other professional financial instruments to help lift local industries out of poverty; offered assistance to an enterprise in poverty-stricken area to complete private placement on National Equities Exchange and Quotations Co., Ltd.; held three educational training activities in respect of capital market, which provided on-site teaching for more than 300 cadres of party and government and principals of key enterprises from Xingguo County in Jiangxi and Xiji County in Ningxia, and improved the practical operation capability of local government and enterprises in propelling economic development by taking advantage of capital markets; promoted one consumption subscription project, generating nearly RMB0.40 million of additional income for farmers of Xintian County in Hunan; and donated RMB0.80 million to Xintian County in Hunan and other poverty-stricken counties through Everbright Group. Our subsidiary, Everbright Futures, donated RMB0.50 million to targeted support area Tongju Village, Yanchang County.

(IV) Subsequent Targeted Poverty Alleviation Plan

Under the urgent requirements of national poverty alleviation, the Company will continue to take full advantage of its platform advantage as a financial holding group and explore poverty alleviation model with the thinking of investment banking to accelerate the in-depth development of poverty alleviation, while making reference to the successful experience from the previous poverty alleviation exploration and practice. Firstly, internal resources are targetedly allocated and green channel is open for poverty alleviation. Drawing on the industrial experience, the Company will give priority to projects located in poor areas, especially paired-support areas of the Company in terms of policies and resources, open green channels for them and implement the policy of "dedicated staff members and special verification" to timely review the projects. Secondly, the Company will focus on promoting the implementation of key projects and develop characteristic projects in financial poverty alleviation industry. The Company will further integrate its internal and external resources and promote the implementation of projects with "security plus" as integrated poverty alleviation model. Meanwhile, it will give full play to the role of officials serving temporary positions as a bridge and connect itself to the local government and enterprises to ensure successful implementation of relevant projects and develop characteristic projects on financial poverty alleviation.

SECTION V SIGNIFICANT EVENTS

X. Corporate Governance

The Company strictly complies with the laws, regulations and regulatory documents including the Company Law, the Securities Law, the Code of Corporate Governance for Listed Companies, Regulations for Supervision and Administration of Securities Companies, the Rules for Governance of Securities Companies, the Mandatory Provisions of Articles of Association of Companies Listed Overseas and the Corporate Governance Code under Appendix 14 of the Hong Kong Listing Rules and established a comprehensive corporate governance system, which is in line with the requirements of the Company Law and the relevant provisions of CSRC. The Company has set up the general meeting of shareholders, the Board, the Supervisory Committee, Board committees and senior management. The general meeting of shareholders, the Board, the Supervisory Committee and the management properly perform their respective duties and responsibilities and act with due diligence, which ensures the standard operation of the Company.

On August 18, 2016, H Shares issued by the Company were listed and traded on the Main Board of Hong Kong Stock Exchange. During the Reporting Period, the Company strictly complied with the Corporate Governance Code and Corporate Governance Report under Appendix 14 of the Hong Kong Listing Rules. Save as otherwise specified in this report, the Company fully abided by all applicable provisions under the Corporate Governance Code and met the requirements of most Recommended Best Practices set out in the Corporate Governance Code.

The Corporate Governance Code requires that Chairman of the Board of Directors and chief executive officer should not be held by one person at the same time. On November 4, 2016, Mr. Xue Feng, an executive Director and president of the Company, was appointed as Chairman by the Board.

The Company is of the view that although the roles of chairman and president of the Company are performed by the same individual, the Board has five non-executive Directors and five independent non-executive Directors in addition to the Chairman of the Company, which delivers strong independence in the composition of the Board and is expected to fully and fairly represent the interests of the shareholders of the Company. The Board and senior management of the Company are comprised of experienced and excellent individuals. It is expected that the balance of power between the Board and senior management of the Company will not be impaired. In addition, the power of the Company does not vested on the same individual, and all significant decisions are made upon negotiations among the Board of Directors, its relevant Board committees and senior management. Moreover, the Board is of the opinion that the role of chairman and president performed by the same individual can provide the Company with solid and consistent leadership and facilitate efficient business plan and decisions.

SECTION V SIGNIFICANT EVENTS

The Board will examine the corporate governance and operation of the Company from time to time to ensure that the Company complies with the relevant requirements of the SSE Listing Rules and the Hong Kong Listing Rules and protect the interests of shareholders.

During the Reporting Period, the Company convened three general meetings of shareholders, five Board meetings, three meetings of the Supervisory Committee, one meeting of the Remuneration, Nomination and Credentials Committee, three meetings of the Audit Committee, and one meeting of the Risk Management Committee.

XI. Dealing in Securities by Directors and Supervisors

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") set out in Appendix 10 to the Hong Kong Listing Rules as the code of conduct of the Company regarding securities transactions by the Directors and supervisors. The Company, having made specific enquiries to all Directors and supervisors, confirmed that they had been in compliance with the requirements of the Model Code during the Reporting Period. The Company has also formulated guidelines, at least as strict as the Model Code, on transactions of the Company's securities for relevant employees (as defined in the Hong Kong Listing Rules). The Company has not found any employee violating the said guidelines.

The Board will examine the corporate governance and operation of the Company from time to time to ensure that the Company complies with the relevant requirements of the Hong Kong Listing Rules and protects the interests of shareholders.

3. Development of Spin-Off Listing of the Company's Hong Kong Business

As disclosed in the Company's H Shares prospectus dated August 8, 2016, the Company intends to spin off its Hong Kong operations, including the businesses currently operated by ESIL and SHKFGL, as well as any other new Hong Kong business that the Company may acquire, through a listing on the Hong Kong Stock Exchange that the Company expects to occur before June 1, 2018. The Company has previously applied for, and the Hong Kong Stock Exchange has granted the Company, a waiver from strict compliance with the three-year restriction requirement under paragraph 3(b) of Practice Note 15 of the Hong Kong Listing Rules, subject to certain conditions, among which the Company shall update the status of the spin-off in its annual and interim reports.

In the second half of 2016, the management of the Company started integrating the investment banking business, brokerage business and wealth management business of ESIL and SHKFGL. As of the date of this report, the integration is under progress and the management of the Company is currently reviewing and considering the appropriate reorganization structure to be implemented in connection with the proposed spin-off.

As the proposed spin-off is at an early stage of consideration, the Company will announce definitive details of the proposed spin-off plan as and when they become available and in accordance with the Hong Kong Listing Rules. No final decision has been made by the Board as to whether and when the proposed spin-off will proceed. There is also no assurance that the Hong Kong Stock Exchange will approve the proposed spin-off.

XIII. Other Significant Events and Subsequent Events

When the Company served as chief agency broker and independent financial advisor for major assets restructuring of Hebei Henghua Shengshi Environmental Protection Technology Co., Ltd. (河北恒華盛世環保科技股份有限公司) (hereinafter referred to as "Hengsheng Environmental Protection"), Hengsheng Environmental Protection violated regulations in process of restructuring and information disclosure, and the Company failed to exercise due diligence and effectively supervise Hengsheng Environmental Protection in performing its information disclosure obligation and improving corporate governance in time. The NEEQ had an interview with the Company on February 27, 2017, requiring it to submit a written commitment of self-regulation measures (Gu Zhuan Xi Tong Fa [2017] No. 21). For the same event, CSRC Hebei Bureau took an administrative supervision measure in the way of having a regulatory interview with the Company on April 13, 2017 (Determination on Administrative Supervision Measure by the China Securities Regulatory Commission Hebei Bureau [2017] No. 7).

On January 4, 2017, Everbright Securities' branch at Jihua Six Road, Foshan received a notice of administrative penalty decision issued by People's Bank of China Foshan Branch. The branch and its person in charge were imposed an administrative penalty of a fine of RMB200,000 and RMB10,000, respectively, because of issues such as failing to fulfill the obligation in verifying client identities as required and failing to conduct the classification and management of risks on money laundering by clients as required.

SECTION V SIGNIFICANT EVENTS

A total of 502 investors brought civil actions arising from the “816 Event” against the Company, involving an aggregate claim amount of RMB68.73 million. As of June 30, 2017, 494 cases were closed and the Company settled RMB41.55 million as compensation for the plaintiffs. 8 cases are still pending for the final judgment involving an aggregate claim amount of RMB870,000, among which plaintiffs of 7 cases with an aggregate claim amount of RMB770,000 appealed against the judgment issued by the court of first instance; and one case that the Company received the judgment of first instance on August 24, 2017 and the appeal filed by the plaintiff was rejected. As of the date of this report, the aforementioned case has no update progress.

On February 4, 2015, Everbright Futures, a subsidiary of the Company filed an action in the Shanghai No. 1 Intermediate People’s Court against Dajiao Niu (大角牛) and Xinhua Xin (欣華欣), the clients of Everbright Futures, claiming that: (1) Xinhua Xin (as the defendant) shall compensate the margin calls of approximately RMB41.90 million and pay the corresponding interest incurred to Everbright Futures; (2) Dajiao Niu (as the defendant) shall be jointly liable for the payment obligation of Xinhua Xin. The Shanghai No. 1 Intermediate People’s Court had accepted the case and a hearing was conducted on July 2, 2015. On March 4, 2016, Everbright Futures received the first instance judgment which supported Everbright Futures’s first claim as mentioned above. On April 8, 2016, Everbright Futures received the notice of appeal served by the Shanghai No. 1 Intermediate People’s Court, pursuant to which Xinhua Xin filed an appeal regarding the first instance judgment. The Higher People’s Court of Shanghai heard the case on May 19, 2016. On January 5, 2017, the Higher People’s Court of Shanghai delivered the second instance judgment: it dismissed above said claims of Xinhua Xin and sustained the order of the court of first instance judgment. In February 2017, Shanghai No. 1 Intermediate People’s Court ordered enforcement of the judgment above. At present, the enforcement is still in progress. On July 17, 2017, Everbright Futures received a notice of appearance issued by the Supreme People’s Court regarding the retrial of this case. The specific date of hearing of the case has not been determined yet.

On January 26, 2016, the Company received a notice of appearance issued by the People’s Court of Jing’an District of Shanghai, pursuant to which a client filed a claim against the Company for RMB39.39 million and related litigation cost. The plaintiff alleged that the Company breached the agreement not to liquidate his margin account in margin financing and securities lending business, which caused loss to him. On November 30, 2016, the People’s Court of Jing’an District of Shanghai delivered the first instance judgment of the case, according to which the plaintiff’s claim was not supported. The plaintiff was unsatisfied with the first instance judgment and appealed the case to the Shanghai No. 2 Intermediate People’s Court. On April 28, 2017, the Shanghai No. 2 Intermediate People’s Court made a final judgment, pursuant to which the appeal was rejected and the original judgment was upheld.

SECTION V SIGNIFICANT EVENTS

On June 7, 2016, Everbright Asset Management, a wholly-owned subsidiary of the Company, received a notice of appearance issued by the Shanghai No. 2 Intermediate People's Court. Xiamen International Bank Co., Ltd. Shanghai Branch ("Xiamen International") alleged that it had entrusted RMB150 million to a 3-year Targeted Asset Management ("TAM") scheme established and managed by Everbright Asset Management. As approved by the plaintiff, the TAM scheme invested the entrusted assets in a trust plan managed by a trust company, which had a duration of 365 days and an expected annual return of 6.2%. Xiamen International alleged that Everbright Asset Management breached its fiduciary duty of care in managing the entrusted assets under the TAM scheme, which caused loss of the entrusted assets and expected returns, and thus initiating the proceeding against Everbright Asset Management requesting it to return the said entrusted assets and pay expected returns. On July 8, 2016, Everbright Asset Management appointed a lawyer to file a counterclaim. Everbright Asset Management requested Xiamen International to take back the entrusted assets and compensate for any loss due to Xiamen International not taking back the entrusted assets in time pursuant to the contract. On February 23, 2017, the court of first instance heard the case and the counterclaim. On March 31, 2017, Everbright Asset Management received the written judgment of first instance, pursuant to which all claims of Xiamen International were dismissed and the aforementioned counterclaim of Everbright Asset Management was supported. Xiamen International has appealed to a higher court and the case is now pending for appeal hearing.

On August 10, 2016, a court hearing was conducted in respect of the case brought by Everbright Leasing against Qiqihar Beixing Special Steel Co., Ltd. (齊齊哈爾北興特殊鋼有限責任公司) ("Beixing Special Steel"), Dongbei Special Steel Group Beiman Steel Co., Ltd. (東北特鋼集團北滿特殊鋼有限責任公司) ("Beiman Special Steel"), Dongbei Special Steel Group Co., Ltd. (東北特殊鋼集團有限責任公司) ("Dongbei Special Steel Group") and Dongbei Special Steel Group Dalian Steel Co., Ltd. (東北特鋼集團大連特殊鋼有限責任公司) ("Dalian Special Steel") about relevant financial leasing contract dispute. On January 25, 2017, the Higher People's court of Shanghai delivered the first instance judgment as follows: Everbright Leasing's claim was supported, and Beixing Special Steel and Beiman Special Steel, as lessees, shall pay Everbright Leasing rent, penalty, remaining purchase price, legal cost and insurance premium of about RMB500 million in total. Meanwhile, Dongbei Special Steel Group and Dalian Special Steel, as guarantors, shall assume joint and several liability for the above-mentioned debts. Neither Everbright Leasing nor the defendant appealed against the first instance judgement.

On June 2, 2017, Everbright Fortune Investment Co., Ltd., a subsidiary of the Company, brought a civil action against Wuyang Construction Group Co., Ltd. in the Shanghai No. 2 Intermediate People's Court in respect of a debt dispute, claiming for repayment of loan principal, interest and related expenses totaling RMB93,064,359.71 from the defendant Wuyang Construction Group Co., Ltd. The first hearing was held on August 2, 2017, and the case is now pending for court judgment.

INDEPENDENT REVIEW REPORT

To the board of directors of Everbright Securities Company Limited*(Incorporated in the People's Republic of China with limited liability)***Introduction**

We have reviewed the interim financial information set out on pages 2 to 78, which comprises the interim condensed consolidated statement of financial position of Everbright Securities Company Limited (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2017 and the related interim condensed consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period then ended, and explanatory notes (the "Interim Financial Information"). The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") issued by the International Accounting Standards Board.

The directors of the Company are responsible for the preparation and presentation of this Interim Financial Information in accordance with IAS 34. Our responsibility is to express a conclusion on this Interim Financial Information based on our review. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the Interim Financial Information is not prepared, in all material respects, in accordance with IAS 34.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The unaudited interim condensed consolidated financial statements for the six months ended 30 June 2017 have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”), as well as all applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

The interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements as at and for the year ended 31 December 2016.

(All amounts expressed in RMB thousands unless otherwise specified)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Principal accounting policies

The unaudited interim condensed consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair value. Except for those described below, the accounting policies and methods of computation used in preparing the interim condensed consolidated financial statements are the same as those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2016.

Amendments to the accounting standards effective in 2017 and adopted by the Group:

In the current interim period, the Group has adopted the following amendments to International Financial Reporting Standards ("IFRSs"), issued by the International Accounting Standards Board ("IASB"), that are mandatorily effective for the current interim period. Descriptions of these amendments were disclosed in the Group's annual consolidated financial statements for the year ended 31 December 2016.

Amendments to IAS 7	Statement of Cash Flows
Amendments to IAS 12	Recognition of Deferred Tax Assets for Unrealised Losses
Annual Improvements 2014-2016 Cycle	Amendments to IFRS 12

The adoption of these amendments does not have a significant impact on the operating results, comprehensive income, or financial position of the Group.

3. USE OF JUDGEMENTS AND ESTIMATES

The preparation of interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, and income and expense. Actual results may differ from these estimates.

In preparing these interim condensed consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Group's annual consolidated financial statements for the year ended 31 December 2016.

Impairment testing on goodwill

Goodwill is allocated to the Group's cash-generating units ("CGU") identified according to operating segments as follows:

	As at 30 June 2017 (Unaudited)	As at 31 December 2016 (Audited)
Futures brokerage	9,380	9,380
Wealth management, investment banking and brokerage	<u>1,635,119</u>	<u>1,685,213</u>
Total	<u>1,644,499</u>	<u>1,694,593</u>

The Group acquired the futures brokerage business in the PRC together with the relevant assets and liabilities, and the interest in Everbright Futures Co., Ltd. in 2007. The Group recognised the excess of fair value of the consideration over the fair value of the net identifiable assets acquired as the goodwill of the futures brokerage CGU.

The Group acquired the investment banking business and brokerage business in Hong Kong together with the relevant assets and liabilities, and the interest in Everbright Securities (International) Limited in 2011. The Group recognised the excess of fair value of the consideration over the fair value of the net identifiable assets acquired as the goodwill of the investment banking and brokerage CGU.

The Group acquired the wealth management and brokerage business in Hong Kong together with the relevant assets and liabilities, and the interest in Sun Hung Kai Financial Group Limited in 2015. The Group recognised the excess of fair value of the consideration over the fair value of the net identifiable assets acquired as the goodwill of the wealth management and brokerage CGU.

In the second half of 2016, management commenced a business integration for the investment banking and brokerage CGU and wealth management and brokerage CGU. The Group has reasonably reallocated the goodwill arising from the acquisition of aforementioned CGU into a wealth management, investment banking and brokerage CGU.

(All amounts expressed in RMB thousands unless otherwise specified)

18. GOODWILL (continued)

The recoverable amount of the wealth management, investment banking and brokerage CGU is based on the present value of expected future cash flows, which was determined on financial forecasts approved by management covering a six-year period and a discount rate of 17.5%, which reflected specific risks related to the CGU. The cash flows beyond the six-year budget period were extrapolated using an estimated long-term growth rate of 3%, which does not exceed the long-term average growth rate for the business in which the CGU operates.

Other major assumptions for the recoverable amount estimation relate to the estimation of cash inflows/outflows which include budgeted income and profit margins, and such estimation is based on the CGU's past performance and management's expectations for the market development.

20. INTERESTS IN STRUCTURED ENTITIES

(a) Interests in structured entities consolidated by the Group

The Group had consolidated certain structured entities, mainly wealth management products. For those structured entities where the Group is involved as manager or as investor, the Group assesses the controlling power according to relevant group accounting policies.

As at 30 June 2017 and 31 December 2016, the net assets of the consolidated wealth management products were RMB13,066,244 thousand and RMB7,880,337 thousand respectively, and the carrying amount of interests held by the Group in the consolidated structured entities were RMB5,167,675 thousand and RMB5,044,618 thousand respectively.

Interests held by other investors in these consolidated structured entities were classified as financial liabilities at fair value through profit or loss, and other payables and accruals in the consolidated statement of financial position.

At the end of the reporting period, the Group reassessed the control of structured entities and determined whether the Group is still a principal.

(All amounts expressed in RMB thousands unless otherwise specified)

20. INTERESTS IN STRUCTURED ENTITIES (continued)

- (b) Structured entities sponsored by third party institutions which the Group does not consolidate but holds an interest in

The types of structured entities that the Group does not consolidate but in which it holds an interest include funds and wealth management products issued by banks or other financial institutions. The nature and purpose of these structured entities are to generate fees from managing assets on behalf of investors. These vehicles are financed through the issued units to investors.

The carrying amount of the related accounts in the consolidated statements of financial position is equal to the maximum exposure to loss of interests held by the Group in the unconsolidated structured entities sponsored by third party institutions as at the end of the reporting period, which are listed as below:

As at 30 June 2017 (Unaudited)			
	Available-for-sale financial assets	Financial assets at fair value through profit or loss	Total

(All amounts expressed in RMB thousands unless otherwise specified)

20. INTERESTS IN STRUCTURED ENTITIES (continued)

(c) Structured entities sponsored by the Group which the Group does not consolidate

The types of structured entities sponsored by the Group which the Group does not consolidate but in which it holds an interest include funds and wealth management products.

The carrying amount of the related accounts in the consolidated statements of financial position is equal to the maximum exposure to loss of interests held by the Group in the unconsolidated structured entities sponsored by the Group as at the end of the reporting period, which are listed as below:

	As at 30 June 2017 (Unaudited)

As at 30 June 2017, the above wealth management products in non-current available-for-sale financial assets included the Company's contributed funds, with various PRC securities firms, to designated accounts established and managed by China Securities Finance Corporation Limited ("CSFC"). Under the relevant agreements with CSFC, the Company contributed RMB5,856.8 million in total in July and September 2015. Risk and income arising from the investment shall be shared by all securities firms according to the proportion of their respective contributions. The investment is under unified operation and management by CSFC.

(All amounts expressed in RMB thousands unless otherwise specified)

23. AVAILABLE-FOR-SALE FINANCIAL ASSETS (continued)

As at 30 June 2017, the investment cost and fair value of the Company's contribution were RMB 4,380.0 million and RMB4,433.1 million based on the investment account statement provided by CSFC. As at 30 June 2017, considering the nature and purpose of this investment, special investment decision-making processes and treatment mode, management is of the view that there is no objective evidence of impairment with significant or prolonged decline in fair value.

As at 30 June 2017 and 31 December 2016, there was no fund investments with lock-up periods included in the available-for-sale financial assets held by the Group.

As at 30 June 2017 and 31 December 2016, the equity securities in the available-for-sale financial assets with lock-up periods held by the Group were RMB730,394 thousand and RMB810,929 thousand, respectively.

In the opinion of the directors of the Company, non-current available-for-sale investments are expected to be realised or restricted for sale beyond one year from the end of the reporting period. The fair value of the Group's investments in unlisted funds, which mainly invest in publicly traded equities listed in the PRC, is valued based on the net asset values of the funds calculated by the respective fund managers by reference to their underlying assets and liabilities' fair values.

The fair value of the Group's investments in equity securities without restriction, exchange-listed funds and debt securities is determined with reference to their quoted prices as at the end of the reporting period.

As at 30 June 2017 and 31 December 2016, the Group entered into securities lending arrangements with clients that resulted in the transfer of available-for-sale investments with a total fair value of RMB1,773,870 thousand and nil to external clients, respectively. These have not resulted in the derecognition of the financial assets. The fair value of collateral received in respect of the securities lending business is analysed in Note 31(c) together with the fair value of collateral of margin financing business.

49. RESERVES AND RETAINED PROFITS

(a) Capital reserve

Capital reserve mainly includes share premium arising from the issuance of new shares at prices in excess of face value and the difference between the considerations of acquisition of equity interests from non-controlling shareholders and the carrying amount of the proportionate net assets.

(b) Surplus reserve

Pursuant to the Company Law of the PRC, the Company is required to appropriate 10% of its net profit to the statutory surplus reserve.

Subject to the approval of the shareholders, the statutory reserve may be used to offset accumulated losses, or converted into capital of the Company provided that the balance of the statutory surplus reserve after such capitalisation is not less than 25% of the registered capital immediately before the capitalisation.

(c) General reserve

General reserve includes general risk reserve and transaction risk reserve.

In accordance with the requirements of the CSRC Circular regarding the Annual Reporting of Securities Companies in 2007 (Zhengjian Jigou Zi [2007] No. 320) issued on 18 December 2007, the Company appropriates 10% of its annual net profit to the general risk reserve. Several subsidiaries of the Company are also subject to relevant general risk reserve requirement according to CSRC regulations.

In accordance with the requirements of the CSRC Circular regarding the Annual Reporting of Securities Companies in 2007 (Zhengjian Jigou Zi [2007] No. 320) issued on 18 December 2007 and in compliance with the Securities Law, for the purpose of covering securities trading losses, the Company appropriates 10% from its annual net profit to the transaction risk reserve.

(d) Fair value reserve

The fair value reserve comprises the cumulative net changes in fair values of available-for-sale financial assets until the assets are derecognised or impaired.

(e) Translation reserve

The translation reserve mainly comprises foreign currency differences arising from the translation of the financial statements of foreign currencies.

(f) Retained profits

Pursuant to the resolution of the meeting of shareholders held on 25 May 2017, the Company distributed cash dividends of RMB2.00 yuan for every 10 shares (tax included) amounting to RMB922,158 thousand in total for the year ended 31 December 2016.

The remaining 7 cases with a total claimed amount of RMB780 thousand were pending for first court trial.

(All amounts expressed in RMB thousands unless otherwise specified)

51. CONTINGENCIES (continued)

(a) Litigation (continued)

On 7 June 2016, the Second Intermediate People's Court of Shanghai issued a notice of appearance to EBSAM, a wholly-owned subsidiary of the Company, pursuant to which Xiamen International Bank Co., Ltd. Shanghai Branch ("Xiamen International Bank Shanghai") filed a claim against EBSAM in respect of a contractual dispute on asset management services. In November 2012, the plaintiff entrusted RMB150 million to a 3-year Targeted Asset Management ("TAM") scheme established and managed by EBSAM. As approved by the plaintiff, the TAM scheme invested the entrusted assets in a trust plan managed by a Trust Company, which had a duration of 365 days and an expected annual return of 6.2%. The plaintiff appealed EBSAM to return the entrusted assets and pay expected returns and appealed the third party bank, which issued a guarantee letter to the plaintiff, to undertake the joint responsibility. The plaintiff alleged that EBSAM breached its fiduciary duty of care in managing the entrusted assets under the TAM scheme, which caused loss of the entrusted assets and expected returns. On 8 July 2016, EBSAM appointed a lawyer to file a counterclaim. EBSAM requested Xiamen International Bank Shanghai to receive the entrusted assets and compensate for any loss due to Xiamen International Bank Shanghai not receiving the entrusted assets in time. The counterclaim has already been accepted by an intermediate court in Shanghai and the first court trial was held on 23 February 2017. On 31 March 2017, EBSAM received the first instance verdict which dismissed all the request from the plaintiff and supported the aforementioned counter-claim from EBSAM. Xiamen International Bank Shanghai has appealed. EBSAM and Xiamen International Bank Shanghai are waiting for the second trial session. As at the reporting date, the final outcome of the lawsuit is uncertain. The Company cannot reasonably estimate any provision for the lawsuit.

Except for the aforementioned case, as at 30 June 2017, the Group was not involved in any material legal, arbitration or administrative proceedings that if adversely determined, the Group expect would materially adversely affect its financial position or results of operations.

(b) Guarantee

As of June 30, 2017, the guarantee balance amounted to RMB5.591 billion, representing 11.50% of the Company's latest audited net assets. The guarantees comply with necessary procedures in accordance with applicable laws, meet the requirements of the Notification on Standardizing the Issues Concerning the Capital Exchange between Listed Companies and Related Parties and the External Guarantees provided by Listed Companies, and do not damage the benefits of the Company and shareholders.

Management commenced to allocate resources and assess the segment performance based on the grouping of operating segments. Accordingly, the reporting period's segment reporting presentation has been presented in accordance with the approach adopted by management in the financial statements.

- Brokerage and wealth management segment earns fees and commissions from providing brokerage and investment advisory services to retail clients, interest income from holding cash on behalf of clients, and fees from selling financial products developed by the Group and other financial institutions;
- Credit business segment earns interest income from margin financing and securities lending, reverse repurchase transactions and other credit granting business, as well as income from the finance lease business;
- Institutional securities services segment earns fees and commissions from underwriting and financial advisory services, investment gains and interest income from market-making and proprietary activities, as well as fees and commission from providing investment research and prime brokerage services to institutional clients;
- Investment management segment earns management and advisory fees from providing asset management, fund management and private equity investment management services to clients, as well as investment gains from the Group's private equity and alternative investments;
- Overseas business segment earns fees and commission, advisory fees, interest income and investment gains from overseas businesses; and
- Other segments include other operations of head office, including interest income and interest expense incurred for general working capital purposes.

(b) Geographical segments

The following table sets out (i) information about the geographical location of the Group's revenue from external customers and (ii) the Group's property and equipment, goodwill, other intangible assets, interests in associates and joint ventures, and refundable deposits ("specified non-current assets"). The geographical location of customers is based on the location at which the services were provided. The geographical location of the specified non-current assets is based on the physical location of the asset, in the case of property and equipment and other non-current assets, the location of the operation to which they are allocated, in the case of goodwill and other intangible assets, and the location of operations, in the case of interests in associates and joint ventures.

54. FAIR VALUE INFORMATION

(a) Fair value of financial instruments

The Group adopts the following methods and assumptions when evaluating fair values:

- (i) Financial assets including cash and bank balances, cash held for brokerage clients, clearing settlement funds, financial assets held under resale agreements, and financial liabilities including placements from other financial institutions and financial assets sold under repurchase agreements are mainly short-term financing or floating interest rate instruments. Accordingly, the carrying amounts approximate the fair values.
- (ii) Financial assets and liabilities at fair value through profit or loss, derivatives and available-for-sale financial assets are stated at fair value unless the fair values cannot be reliably measured. For the financial instruments traded in active open markets, the Group uses market prices or markets rates as the best estimate for their fair values. For the financial instruments without any market price or market rate, the Group determines the fair values of these financial assets and financial liabilities by discounted cash flow or other valuation methods.
- (iii) The fair values of long-term bonds and other non-current liabilities — put right liabilities arising from business combination are determined with reference to the available market prices or quotes from brokers or agents. If there is no quoted market price in an active market, the Group estimates the fair values using pricing models including discounted cash flow and binomial pricing models.
- (iv) Accounts receivable, other receivables and prepayments, margin accounts receivable, and accounts payable to brokerage clients mainly are within one year. Accordingly, the carrying amounts approximate the fair values.

(b) Fair value of other financial instruments (carried at other than fair value)

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 31 December 2016 and 30 June 2017 except for the following financial instruments, for which their carrying amounts and fair value and the level of fair value hierarchy are disclosed below:

Carrying amount:

	As at 30 June 2017 (Unaudited)	As at 31 December 2016 (Audited)
Financial liabilities		
– Long-term bonds	38,362,766	28,626,730

Financial liabilities				
– Long-term bonds	-	28,612,254	-	28,612,254

(All amounts expressed in RMB thousands unless otherwise specified)

54. FAIR VALUE INFORMATION (continued)

(b) Fair value of other financial instruments (carried at other than fair value) (continued)

The fair values of the financial liabilities included in the level II above have been determined in accordance with generally accepted pricing models including discounted cash flow analysis.

Except for the above, the directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the Group's statement of financial position approximate their fair values.

(c) Fair value hierarchy

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level I valuations: Fair value measured using only Level I inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level II valuations: Fair value measured using Level II inputs i.e. observable inputs which fail to meet Level I, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level III valuations: Fair value measured using significant unobservable inputs.

If there is a reliable market quote for financial instruments, the fair value of financial instruments is based on quoted market prices. If a reliable quoted market price is not available, the fair value of the financial instruments is estimated using valuation techniques. Valuation techniques applied include reference to the fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. The inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and foreign exchange rates. Where discounted cash flow analysis is used, estimated cash flows are based on management's best estimates and the discount rate used is determined by reference to another instrument that is substantially the same.

54. FAIR VALUE INFORMATION (continued)

(c) Fair value hierarchy (continued)

The table below analyses financial instruments, measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

During the reporting period, there were no significant transfers between Level I and Level II.

There were transfers between Level I and Level III during the reporting period, as a result of the fact that several unlisted equity investments were listed in exchanges during the reporting period. Other than the above, there was no significant transfer into or out of Level III during the reporting period. The Group's policy is to recognise transfers between levels of fair value hierarchy at the end of the reporting period in which they occur.

(All amounts expressed in RMB thousands unless otherwise specified)

54. FAIR VALUE INFORMATION (continued)

(c) Fair value hierarchy (continued)

(i) Financial instruments in Level I

The fair value of financial instruments traded in active markets is based on quoted market prices at the end of the reporting period. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the closing price within bid-ask spread. These instruments are included in Level I. Instruments included in Level I comprise primarily securities traded on exchanges and fund investments traded through exchanges or fund management companies.

(ii) Financial instruments in Level II

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level II.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level III.

(iii) Valuation methods for specific investments

As at the end of the reporting period, the Group's valuation methods for specific investments are as follows:

- (1) For exchange-listed equity securities, fair value is determined based on the closing price of the equity securities as at the end of the reporting period within bid-ask spread. If there is no quoted market price as at the end of the reporting period, valuation techniques are used to determine the fair value.
- (2) For exchange-listed investment funds, fair value is determined based on the closing price within bid-ask spread as at the end of the reporting period or the most recent trading date. For unlisted open-end funds and wealth management products, fair value is determined by the quoted price which is based on the net asset value as at the end of the reporting period.
- (3) For debt securities listed through exchanges, fair values are determined based on the closing price within bid-ask spread of the debt securities as at the end of the reporting period.
- (4) For debt securities traded through the interbank bond market and the OTC market, fair values are determined by valuation techniques.
- (5) For futures traded through exchanges, fair value is determined based on the closing price of the futures as at the end of the reporting period.

(iv) Financial instruments in Level III (continued)

For financial instruments in Level III, prices are determined using valuation techniques such as discounted cash flow models and other similar techniques. Determinations to classify fair value measures within Level III of the valuation hierarchy are generally based on the significance of the unobservable inputs to the overall fair value measurement. The following table presents the related valuation techniques and inputs of the major financial instruments in Level III.

Financial assets / liabilities	Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)	Relationship of unobservable input(s) to fair value
Stock with disposal restriction within a specific period	Level III	Option pricing model	Volatility	The higher the volatility, the lower the fair value
Wealth management products, private placement bonds	Level III	Discounted cash flow model	Risk adjusted discount rate	The higher the risk adjusted discount rate, the lower the fair value
Equity securities, unlisted equity investment with limited marketability	Level III	Market valuation approach	Discount for lack of marketability	The higher the discount, the lower the fair value
Financial liabilities	Level III	Market valuation approach	Discount for lack of marketability	The higher the discount, the lower the fair value
